

Comenius

Comenius is a school project whose purpose is to learn children about other countries, their traditions etc. Our Primary school Vizovice is a partner to schools in Turkey, Latvia and Greece. Comenius lasts for two years. Comenius is an optional school subject, so it is free for children to join. It is not as imperative as Maths, for example. In our Comenius group are only girls, because no boys joined in. We have a very good teacher Mrs. Macku which is very good English teacher. In year 2008, our project was about our country – we presented our country to the other foreign schools and they presented their schools to us – and the other project was about getting knowing our partners and we had a presentation at our school. In year 2009 our project is about important days in our country and important persons in our country.

A part of our project is to travel from our country to the other countries by planes and have there a partner meeting, but if you want to go somewhere, you must do something for it. I'm doing this report because I want to go to Turkey. The goal of the Comenius project is exchanging experiences between the partner schools, improving and using English language in practice etc. In November 2007 was 1st partner meeting in Broceni – in Latvia, in May 2008

was 2nd partner meeting in our Czech Republic in Vizovice, in autumn 2008 was 3rd partner meeting in Atheny in Greece and in year 2009 will be the last partner meeting in Cinarcik in Turkey. The ones who go to the foreign countries are co-ordinators of the Comenius project from the countries, assistants of teachers who team up with the project and assistants of children. In Latvia were my friends Háša Kulhánková and Daniela Beňková, in our country were children, whose names I forgot, in Greece were my friends Barbora Červenková and Veronika Jaroščáková and now someone will be going to Turkey. Who will it be? The choice is now on our teacher Mrs. Macku.

Jarmila Juráňová, 9.B

Comenius Project is a partnership among European countries.

This project is two years long.

In our group are fourteen girls.

We cooperate with school from Latvia, Greece and Turkey.

The first year we prepared a booklet about Czech Republic.

Next we made a map with Czech historical and natural beauties.

The second year we will produce collective calendar about Countries' Holy Days, National Holidays and Festivals.

Each country will present its three important days.

We prepare a booklet about Czech meaningful happenings in English too.

In November 2007 was the first project meeting in Latvia.

Latvia visited Hana Kulhanková and Daniela Beňková with teachers.

The second project meeting was in the Czech Republic.

Veronika Jaroščáková and Barbora Červenková were in Greece.

And last meeting will be in Turkey.

Our whole group visited Walachian Museum in Rožnov pod Radhoštěm and Museum of John Amos Comenius in Přerov.

Even we were in Vienna.

Thanks to Comenius:

I have new friends.

I am better in English.

I saw new places of Czech Republic.

I know more things about Czech Republic and our partner countries.
